

*“HARM REDUCTION” IS A STEP BACKWARDS

***ie: Drug-injection sites, needle-exchange programs, heroin maintenance,
non-abstinence based treatment and legalization**

- At the last World Conference on drug related issues, drug policy experts from twenty-five nations agreed that the softening of drug policy, commonly termed “HARM REDUCTION” has been a major FAILURE! They concluded that “HARM REDUCTION” policies INCREASE DRUG USE and CRIME wherever they are implemented.
(Institute on Global Drug Policy)
- In Canada today, the HARM REDUCTIONISTS have dominated national, provincial and local drug policy decisions.

BUT their FALSE PROMISES threaten the well-being of our children and our society.....**PLUS**, they are costing Canadians millions of dollars that would otherwise be directed to REAL HEALTH CARE.

Canada needs to learn more about prevention, law enforcement and treatment.

The Drug Issue.....It affects us all!
